Lew-Port, 1/31

***All wrestlers planning to compete must be at practice, and able to fully participate during practice, the day before a scheduled competition.**

FYI: Any competitions held the day after a school closer will be given a 1-pound weight allowance. Any back-to-back dual meets to tournaments will be given a 1-pound allowance. Any 2-day tournaments, the 2nd day will be given a 1-pound allowance.

Coach's note: Athletes chosen to wrestle during competitions will be determined by the Coaches. Coaches will base their decisions on the athletes' displayed level of commitment to the team, effort, attitude, and skill in and out of school, at practice and at prior competitions. Wrestle-offs will be used to gauge the athletes' capabilities if they are closely matched with a teammate. The possibility of competing also depends on the availability of wrestlers at their weight class on the opposing team. Varsity wrestlers may be moved into other weight classes to give the team the best chance to win. Coaches will make every effort possible to get JV wrestlers a match that would be safe, based upon skill and experience level, through consulting opposing coach.
