Cross Country Champs

The 1951 Cross Country Team was without a doubt the most successful in Madison's history. The team, with a Madison runner coming in first at all races, won every meet copping the city title for Madison's first Cross Country Championship. Special distinction was won by Pete Carmichael who came in first every race he entered and also placed second in the sectionals. Consisting largely of underclassmen, chances for a repeat championship next year look very good for the Wilson Parkers.
