

Wrestling

EARLY LAST FALL there came from Alfred a stranger who was destined to leave his mark in the history of athletics at Mansfield. At this time nothing much was known of his athletic ability. But soon on the gridiron he showed to be a fighter. It was he who with the backing of Dr. Straughn, banded together a few young who were interested in the gentle sport and after a month's training set out to do battle with formidable opponents. The young man is Yatsi Gullo and Mansfield owes him a vote of thanks for introducing a sport which was so quickly received.

The team completed a very hard schedule, losing five meets and winning two. This is a creditable showing for the boys who met matmen of far greater experience. Though the team was outclassed in skill it was never outclassed in fighting spirit. And next year that same spirit coupled with more experience will lead them on to a successful season.

The schedule of games this season:
