

Wrestling

For the first time in the school's history, wrestling was introduced into the interscholastic athletic program. The groundwork for this program was prepared last year by means of an intramural wrestling program.

In this first year of interscholastic competition, nine meets were arranged. The overall record of four wins and five losses is not overly impressive, but as a new activity, it cannot be considered disappointing.

The highlight of the wrestling program was the meet with Hammondsport. This was put on as an assembly program, primarily to familiarize the student body with the newly introduced sport.

It was mainly through the efforts of Mr. Warner that wrestling has become another popular sport in the athletic program.
