## TENNIS

This was the first year that Spencerport had a tennis team, and a large turnout of boys indicated growing interest in the sport. Each boy had an equal opportunity of becoming a member of the squad through a system of successive challenges.

Tennis is a vigorous, individual sport in which each player is required to have intelligent judgement, quick reflexes, and stamina. Coach Michael Fedoryshyn had high praise for the boys in their first year of competition.

Spencerport Rangers  
1960-1961 Wrestling

Spencerport's wrestling squad, last year's Monroe County champion, is now in the process of rebuilding. Coach Sinibaldi has high hopes for his sport because of the intense interest of those boys now participating. With the help of a few more boys, we feel sure that wrestling can become a sport of which Spencerport can be justly proud.
