

LCS Wrestling

The '96-'97 wrestling season was a mix of great triumphs and disappointments. The team consisted of veterans for most of the weight classes, young prospects to fill in other weight classes and a new coach to breathe life into the team. The wrestling team worked through problems and injuries to accomplish many remarkable feats. The team recorded its fifth consecutive division title, with a win over rival Alexander. The team also posted high finishes in several tournaments despite its limited number of wrestlers.

The Tigers were led by many great seniors, and their skills and leadership will be sorely missed.

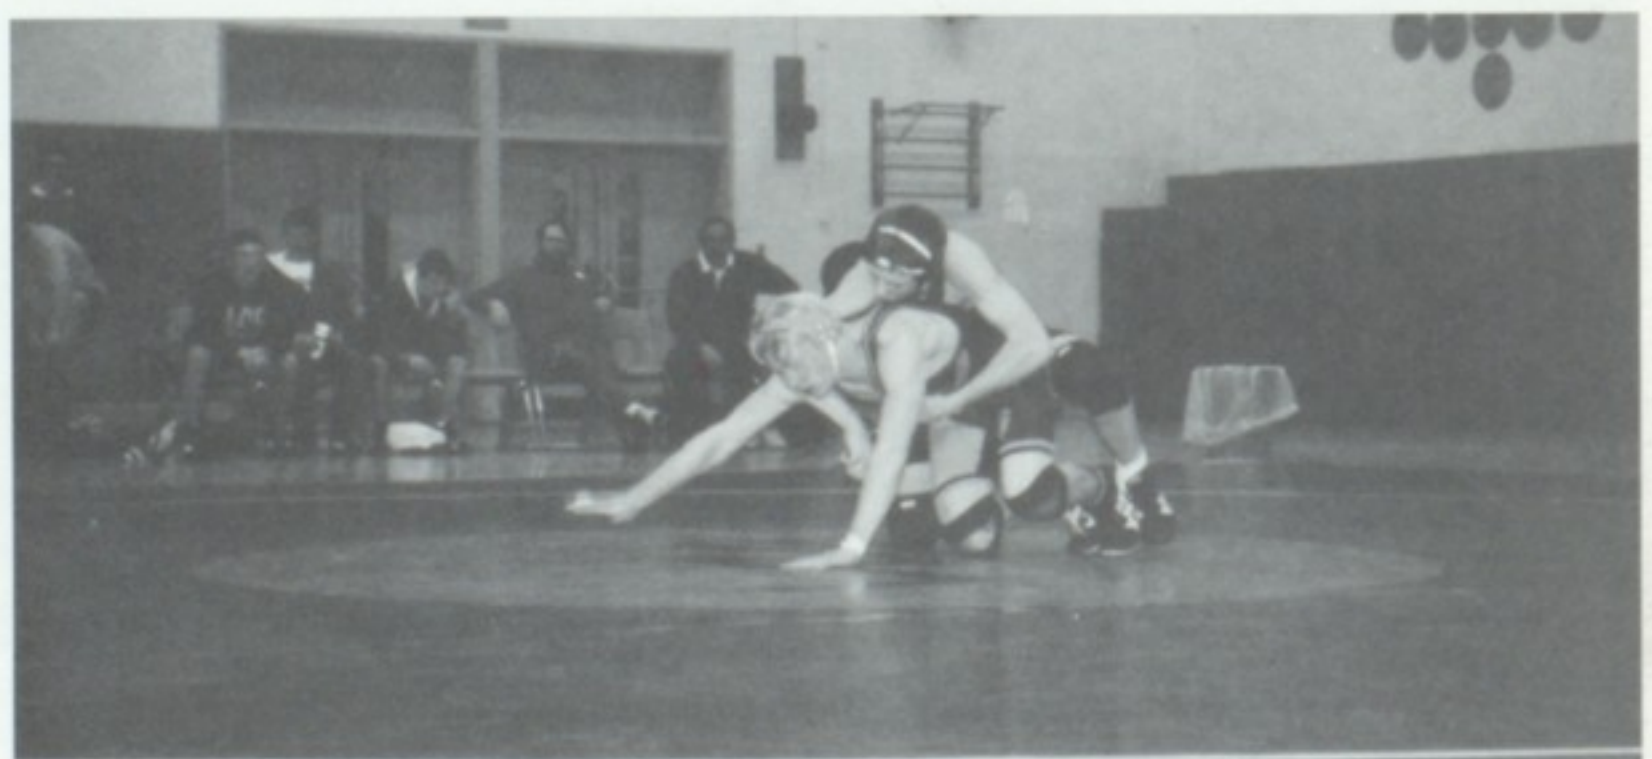

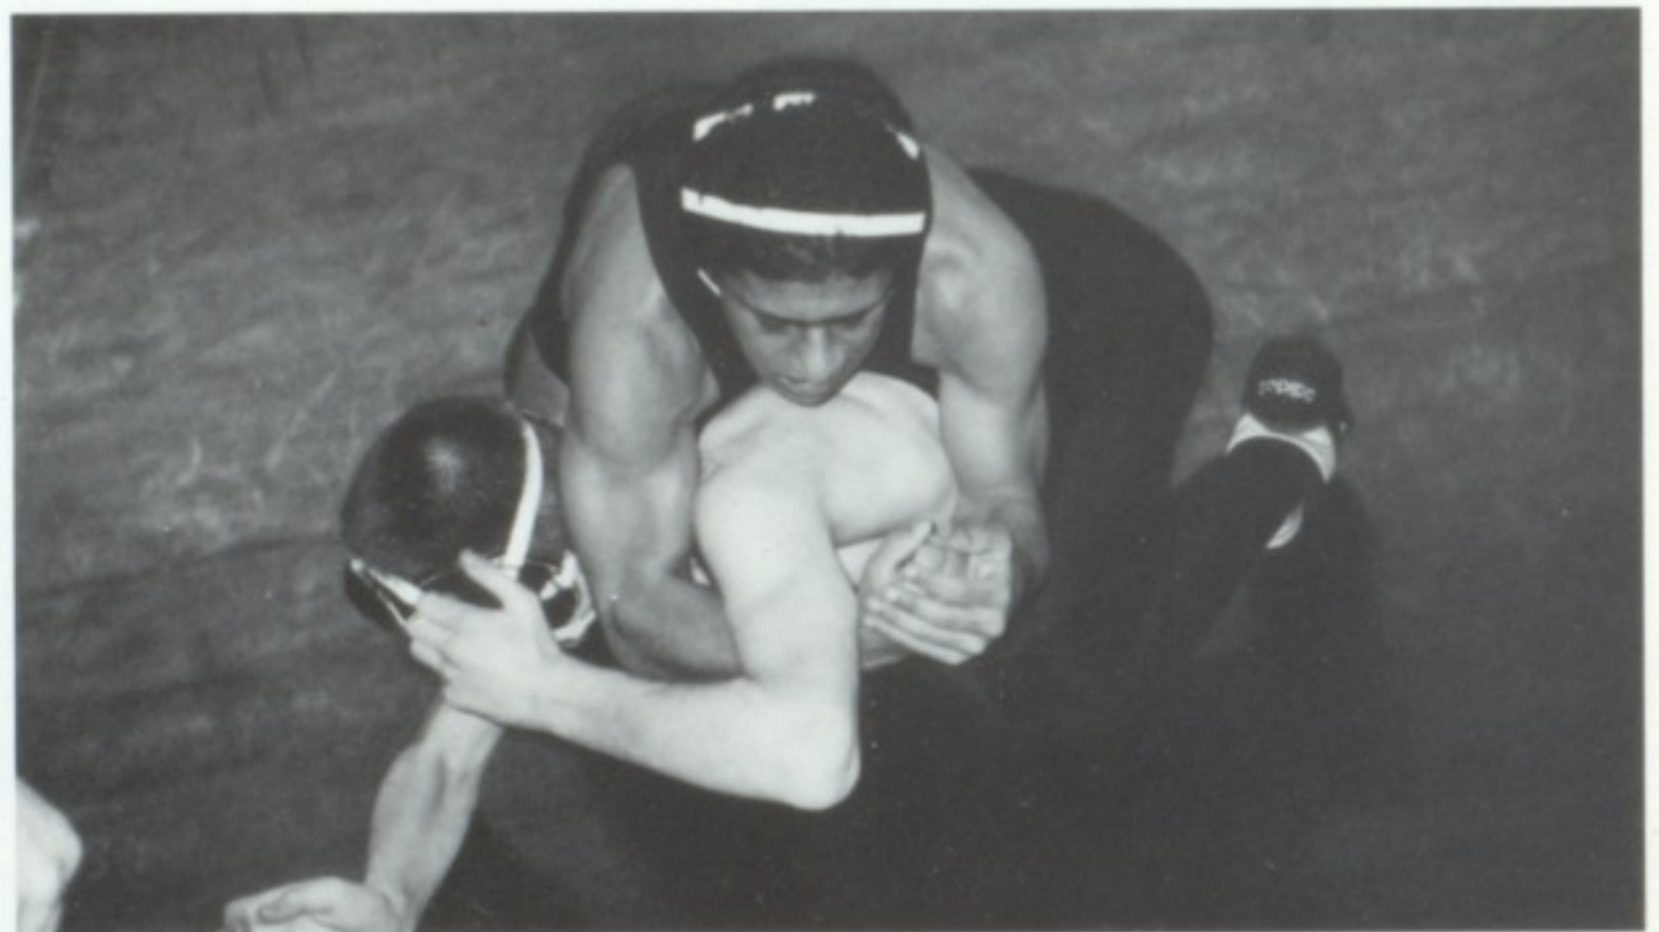

Lyndonville Tigers
